

Baker Tech supports active ageing, sponsors Theatre for Seniors

Image courtesy of The Necessary Stage

Dec 2009 – Baker Tech is a proud sponsor of “Encore II: Heartland! Heartland!” – a production by the Theater for Seniors (TFS). TFS is an initiative by The Necessary Stage to promote active ageing by equipping seniors aged 50 and above with skills and knowledge for theatre and drama.

The production is a culmination of the seniors’ efforts and a chance for them to showcase their newfound skills.

Baker Tech wishes TFS and The Necessary Stage every success in their admirable cause, and hopes that our financial support will help engage more seniors in our community to stay relevant and active in their silver years.
